

# Air National Guard

## Snapshot

Jan - Mar 2009

*A summary of facts and figures about America's Air National Guard*

## What we believe

**Vision - The Air National Guard will meet 21st century challenges by proactively shaping its future with combat-ready, adaptable Airmen at its core. Together with its partners it will provide the capabilities necessary to guard America at home and defend freedom worldwide.**

**Priorities** - The Air National Guard will shape its environment to:

- Develop adaptable Airmen
- Secure the homefront while defending the Nation
- Transform from a platform-based force to a capabilities-based force

### Guiding Principles

- Our heritage is, and will remain, unit-based in local communities.
- We will continue to be the Total Force's Swing Force and will always support the homeland mission as the Governor's first military responder, while providing ready, capable, trained and equipped units to support the Air Expeditionary Force.
- We will adapt to serve in those new mission areas that allow us to bring capabilities to the Governors while maintaining relevance as a warfighting component to the Air Force

### Operating Principles

- The Air National Guard is a Reserve Component of the Total Air Force

- The Air National Guard is the air component of the National Guard
- The Air National Guard culture and experience strengthens the Air Force
- Integration of Air National Guard, Air Force, National Guard Bureau, State and Territory headquarters staffs will result in better decisions
- State and Territory requirements must be addressed in the Air Force planning and programming processes
- Modernization/recapitalization efforts must be proportionately and concurrently resourced with a clear understanding of the operations tempo impact

### Strategic Ambitions

- The Air National Guard is viewed as an equal partner in the Total Force, both operationally and corporately, with a reputation for participating and shaping rather than coordinating and responding
- The Air National Guard's unique attributes (e.g. stability, experience, civilian skills, community roots) are effectively leveraged within the Total Force to support State, Territory, and Federal requirements
  - The Total Force is enhanced through the harmonized efforts of Federal, State and Territory leadership
  - Emerging Air National Guard leaders move between Federal, State and Territory leadership positions seamlessly
  - Air National Guard staff structures effectively and efficiently operate at all levels—Federal, State, Territory and local
  - Organizational constructs maximize the capabilities and culture of the Air National Guard

## ANG Demographics

### FY09 Programmed End Strength: 106,700

#### Totals (Authorized):

Drill Status:	94,226
